Client Name: Christopher Burton
App Name: RevTones
App Vision: The app is under the "Lifestyle" category. This is a ringtone app targeted for ca enthusiasts. This app will be able to provide users a collection sounds from cars. Users will also be provided information on the car and the social accounts of the owners of the car.

CODING NOTES:

- **Monetization: free to download, access and create ringtones, downloading other's ringtones (0.99$)**
- **Run banner ads (nothing intrusive)**
- **The ringtones will also vibrate in coordination with the sounds. As the sound get loud a the phone vibrates with a faster frequency or it could be tied to the pitch. A higher pitch is a faster buzzing frequency low pitch is a lower frequency.**
- **Users will be able to search/browse for Revtones without signing in, but will need to sign in when attempting to download a revtone or editing a profile.**
